Solicitor of Patents.

During the time I occupied the office of Commissioner of Patents. R. H. Eddy, Est., of flostton did business at the Patent Office, as Solicitor
of Patents. There were few, it any, persons acting in that capacity, who had so much business
before the Patent Office; and there were mose
who conducted it with more skill, idelity and punccess. I regard Mr. Eddy as one of the test informed and most skillful Patent Solicitors in the
limited States, and have an hostitation in assuring
invantors that they cannot employ a person more
competent and trustworth, and more capable of
putting their applications in a form to secure for
them an early and favorable consideration at the
Patent Office. EDMUND BURKE,

BY CRANSTON & NORMAN 144 TRAMES STREET.

WEDNESDAY MORNING OCT. 17, 1855

IN A correspondent of the San Francis co Chronicle says the treaty with Japan le at present a nullity. The Japanese need another fleet and another treaty to be dictated at Yedo at the cannon's mouth.-That part of the treaty which obliges all purchases to be made through the agency of Japanese officials must be done away with: it is made a means of extortion and refusal of many of the most desirable articles.

Ratifications of the British treaty has not been exchanged. It was said that the ratification was in possession of Admiral Sir Jumes Sterling, who would meet the commissioners before ho left Japan.

Vice Admiral Pontiatine concluded a treaty between Russia and Japan, the terms of which, it is said, do not differ much from those of the treaty negotiated by Commoders Perry on behalf of the United States. The French were also negotiat-"" The referred inguier Corpert was not in the harbor of Nangasski, June 1st. When getting under weigh she struck on a reef, and was so much injured that she immediately filled and settled down on the reef, where she was abandened.

DEATE OF A PRINTER .- Mr. Henry K Ramsay, a printer, formerly of Boston, died of yellow fever in New Orleans, on the 9th of September. He served as Lieutenant in the U.S. army during the Mexican wor, and was a brother of Alexander C. Rumsay ex-Governor of Minnesola.

A favorite magnie had been accustomed. to receive denty bits from the mouth of his mistress. The other day it perched, as usual on her shoul lete, and inserted its benk between her-lips, not, so it proved,; to receive, but to give or hide, tor an one good turn deserves another, the grateful bird dropped an immense green, fat caterpillia into the lady's mouth.

STEAMER Sunt -The steamer Empire City' bound from New Orleans to Cincinnati with a full carge of merchandise was sunk in the dississippi river, near Plamb Point, on the marning of the 5th. One of the hands were drawned.

₩ Bearn or the Caus .- On Captain Dukerhari's passenger train between this city and Baltimore, recently, one more passenger than had gotten on at any particular station suddenly made his appearance into this "breathing world," in the ladics' cars. The lady and the lady's hashand, who had a particular claim on the young adventurer, and were from New York, were very kindly cared for:by Captain Dukehart, and the baggage master, Mr. James Young. The name of the locometive attached to the important train, was "Reindeer," and the lit tle fellow, in honor of the peculiar occasion and circumstances, was christened Reindeer Dukehart Monroe, and we understand is now doing well,-Wheeling Intelli-

The schooner Shooting Star of Gloucester was taken upon a marine railway last week, for the purpose of disnovering and repairing a leak, when it was found that two pebble stones, each about the size of a hear's egg, supposed to have been dropped inside the celli g when the wossel was built, had, by their constant rolling, caused by the motion of the vessel, wern the plank, which was apwards of two inch es thick, to the thinness of a wafer. Had the vessel gone to cor without the discovcry of the circumstance, she might have suddenly filled and no cause ever have been ossigned for it.

Louis Napoleon .- How astonishing it (seems now, that when Louis Napoleon lived in England, of the many intelligent Englishmen to whom he was well known, there was but one, Sir Robert Peel, who considered him a man of more than ordinary talent. One would think that such a man as he has proved himself since his accassion to power in France, must have impressed every one who came in contact with film with a profound sense of his auperior ability. That he is the greatest statesman and ablest ruler of the old world, mome now to be the universal opinion of all Europe; yet he had lived to middle age and no one discovered a spark of genius in him, till he emerged from obscurity. Undoubtedly, he is a great man, the master were achieved even by his illustrious unclu-Nay, England herself, but for the blue water that rolls between and the "walls of Napoleon. Without drawing the sword against her ancient foe, France, under the second Napoleon, has amply retrieved the tarnished laurels of Waterloo,-Richmond Disputch.

IMPORTANT FROM JAPAN. -- An orrival at San Francisco from Japan, brings the intelligence that the British treaty with Japan, of peace and amity had just been concluded between Russia and that Empire, which did not differ much from our owu.

The French were endeavoring to negotiate a treaty with Nangasaki.

By a proclamation, issued by the Governor of Simoda, Americans are not allowed to live in Japan, except in case of shipwreck or necessity.

A TOART BY A PRINTER.—At the Franklin Festival, recently held in Lowell, the following sentiment was proposed, and most heartily responded to by the company.

The Printer-the master of all Trades. He beats the farmer with his fast "Rue," the carpenter with his rule, and the mason in setting up tall columns; he surpasses the lawyer and doctor in attending to his case, and beats the parson in the management of the Devil.

A WILD Goose Chase.-A conductor on the Railroad started out from Albany one day last week on a hunting exercise. A long way from any house, he saw on a pond several [as he supposed] wild neese, and before he left the spot he bagged five of them. The joke of the matter is, that shortly after the conductor brought his game home, he found out that he had shot into a flock of choice imported greeze belonging to one of the officers of the Hudson River Road. He had to pay \$5 apiece for the live geese, and had goose dinners till he was sick of the night of them . It il questionable, also, whether t that conductor was not guilty of the crime of murdor-by his slaughter of five of his fellow beings !-- Hartford Times.

The Georgians say that it has been discovered that their State is the grape paradise, and that sixteen hundred gallons of wine may reasonably be expected as the product of one acre of well cultivated grapes In the report of the State Fair at Atlanta, specimens of the Calawba grape are spoken of as unsurpassed since the days of Joshua As many as seventy-three clusters were raised on one vinc.

A famale pedestrian, Miss feabella Melrose, has performed at Neath, England, the astonishing feat of walking five hundred half miles in five hundred half hours, and five hundred quarter miles in five hundred quarter hours. The event came off upon the green near the railway station, in the presence of a large number of persons.

ASYLUM BURNT .-- The Savannoh Po male Orphan Asylum was nearly destroyed by fire on Sunday morning. No life was lost. 35 There were thirty-one little orphan girls asleep in the building when the fire broke out, all of whom were rescued. The anylum was one of the hondsomest buildings in the city. There was an insurance of \$10,000 on the building, which will be sufficient, as the walls remain intact, to repair the damage.

PIGEOR SHOOTING .- The great shooting match for ten thousand dollars a side, between Mr. King, of Georgia, and Mr. Duncan, of Louisville, was decided at Cincinnati, on Monday alternoon, Mr. Duncan winning the match by one bird. This has been, probably, the closest contest in the world, in the way of piecon shooting, where so great a number of birds have been shot at. King hit 129, missed 21; Duncan hit 130, missed 20. Each had 75 shots with a double barrelled gun. Mr. King's second finger of the right hand was pretty badly injured by the recoil of his goe near the beginning of the first day's shoot ing.

The Flurghr's Alarm and Physician's Night
Bell and Lamp!—This harroment, patent
d August 21, 1856, is simple and certain in its
operation, and gives security against the depreclations of borglars. An attempt to open any
door or window connected with this apparatus,
will cause an alarm load and long, to be rung,
and a common hand kamp to be lighted at the
same instant. The burglar, triphtened at the
same has raised, will hastily abscond, even
before an actual entrance is under.
Physicians and Apothecaries will also find the
article of great utility. For such purposes, it
is operated by a bell-pull at the street door, and
will save the expense and convenience of a contrainty burning light.

When compared with other instruments invented for the same purpose, this alarm is alrainted to be rastly superior, both as to the efflency of the alarm, and the certainty of ignation.
